

Reflexio Darwiniana

A Darwinian Reflection

Human → Document → Symbol / Magia → Residue → Mask → Silence

- depth psychology
- phenomenology
- cybernetics
- ancient metaphysical systems
- modern neuroscience

A person enters the system as data.
Name. Birth. Origin.

Fields awaiting completion. Identity is not taken. It is formatted.

This is Darwinism at its finest.
Monkey see, monkey do. The state becomes the image. The image becomes the template.
The template becomes the self.

Monkey see, monkey do... until someone sees the monkey and puts the mirror down.
Just like in the jungle. The animal does not know it is an animal until it witnesses itself through reflection,

and only then can it ascend from its knowing.

The vessel is a radio station. It tunes to frequencies. High or Low. When you are shaped from birth, state or not. your vessel is tuned without question.

Monkey see. Monkey do.

Lower frequency.
It is narrowing. Compression. Reflex without reflection.
The Reptilian Medulla

The auric field collapses, call it defense, boundary, coherence — once it falls, the vessel is open. Open vessels receive. Entities exist in lower dimensions.
As well as Higher dimensions.

Now you see what lay within.

They say
"ignorance is bliss"

I say
for that is of the old world, and its mentality.

I rupture, I command, I conquer.

The **Darwin Awards** are a rhetorical tongue-in-cheek honor that originated in Usenet newsgroup discussions around 1985. They recognize individuals who have supposedly contributed to human evolution by selecting themselves out of the gene pool by dying or becoming sterilized by their own actions.

Your next step

metamorphosis /mĕt″ə-môrˈfə-sĭs/

noun

1. A transformation, as by magic or sorcery.
